

LinkedIn

The LinkedIn Workshop credit is especially helpful for senior Scholars networking to find a job or relocate to a new area. LinkedIn is a social networking site (like Facebook) used primarily by business professionals to network with those of similar interests and to make connections that can provide job leads. This credit can be completed independently. For this credit, complete the following:

- Join LinkedIn at the following site: <https://www.linkedin.com>
- Develop a detailed profile (Be sure to use a professional photograph).
- Join HanoverCAN, Hanover's alumni career network.
- Post a question you would like assistance with on the HanoverCAN discussion board.
- Connect with 10 people.

Simply let the BSP staff know you have completed the requirements. We will confirm you have done so and give you credit. This credit is currently only available to seniors, but we encourage all classes to create a LinkedIn profile in preparation for your career search.
